MIGRANTS *take Care*

Enhancing the Employability Skills Of Migrant Care Workers

2018-1-ES01-KA204-0050413-
MIGRANTS TAKE CARE

STRATEGIC PARTNERSHIP FOR ADULT EDUCATION
ERASMUS +
2018-2020

Co-funded by the
Erasmus+ Programme
of the European Union

Toolkit

The Toolkit includes:

Skills assessment tools

01

Recognition and validation of skills acquired through informal and non-formal learning and former work experience, including literacy, numeracy and digital training.

Specific technical and cultural trainings

02

(e.g. psychology of elder/ disabled people, first aid course, national health care system, cultural communication and intimate spaces).

03

Work based online course.

Online Handbook for Institutions and Care Service Providers

Development of online guidelines to support the recruiting of migrant caregivers and their integration process at the workplace.

Pilot Training

The project will also implement pilot trainings in a dual approach for testing and evaluating the training material and to promote work-based learning.

¿WHAT MEANS ON DEMAND TRAINING?

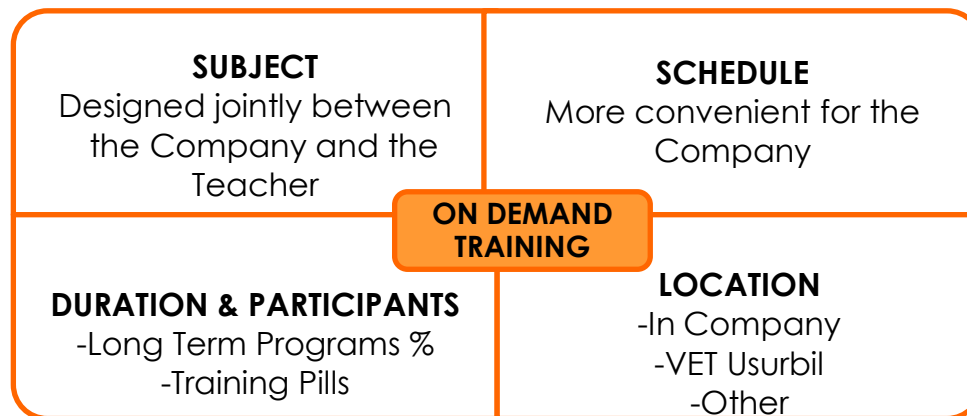

We design **Training Programs 100% adapted to the reality and needs of each company of the 5 areas we work**. What makes us different is our flexibility, adaptability and practical training.

We study and make a diagnosis about the **concrete needs and problems to be able to define the appropriate Training Solution customized for its organization**.

After gathering all the necessary information, the Coordination Team designs a Training Program and its content, all according to the quality **standards required by VET Euskadi**. In addition to this, they all are reviewed by **Quality Department** in the School.

Of course, the possibility of modifying or adapting the program is open to the organization.

QUICK FACTS ABOUT US

ZubiGune Fundazioa is a non-profit organisation founded in 2011 by Vocational Education and Training School (VET) from Usurbil and technological companies , committed to:

- Increase **technological development and innovation in local companies** by TKGUNE Projects
- Share the know- how taking part in **local, national, european and international programs**
- Launch **Continuous Training Programs**
- **Workshops, social activities...**

ZubiGune is located only 10 min. by car from San Sebastian, Basque Country, North of Spain.

At the School we work **5 different areas of expertise:**

We are here:

1. Management and Soft Skills
2. Electricity – Electronics
- 3. Energy and Water Conservation & Renewable Energies**
4. Mechanical Manufacturing
5. Installation and Maintenance

ON DEMAND TRAINING

Some examples of **DEMAND TRAININGS** that we have designed by request of different companies:

<ul style="list-style-type: none">• METROLOGY• TECHNICAL DRAWING• PROGRAMMING AND NUMERICAL CONTROL• 3D PRINT• WELDING• FOUNDRY• MOLDING AND MACHING <p>1. Mechanical Manufacturing</p> 	<ul style="list-style-type: none">• ADVANCED INDUSTRIAL MAINTENANCE MANAGEMENT• ELECTROMECHANICAL• PNEUMATICS• HYDRAULICS• LABORAL RISK PREVENTION• AUTOMATIC PROGRAMMING <p>2. Installation and Maintenance</p> 	<ul style="list-style-type: none">• ELECTRICAL CIRCUITS• AUTOMATIC PROGRAMMING• TIA PORTAL• SIEMENS S7 <p>3. Electricity – Electronics</p> 	<ul style="list-style-type: none">• THERMAL• PHOTOVOLTAICS• THERMOGRAPHY• BOILERS BIOMASS• MINI WIND• ENERGY EFFICIENCY• PLUMBING <p>4. Renewable Energies</p> 	<ul style="list-style-type: none">• PEOPLE MANAGEMENT• 5S• AMFE• COMMUNICATION SKILLS• EFFICIENT PRESENTATIONS• OFFICE ADMIN• LANGUAGES <p>5. Soft Skills and Business Management</p>

SUMMER COURSES RELATED TO RENEWAL ENERGIES

*Brochure included

SOME EXAMPLE OF PROGRAMS FOR INTERNATIONAL STUDENTS

- Every year, our school welcomes **students from several American Universities** and participates in the development of workshops for the **Renewable Energy course and Energy Efficiency** organized by Tecnun, the School of Engineers of the University of Navarra.
- We have already welcomed students from Tampa, **FLATE University**, to develop a **training program on Renewable Energy** of three weeks of duration, where students and professors received training on **system automation, different control systems and applications of renewable energies and Basque Training School's Metodology**.
- **Since 2012** our school welcomes **technicians and engineers from Chile and Mexico** regarding specialization programs and workshops about energy efficiency.
- In July 2019 we will launch a **New Summer Program** that offers interdisciplinary knowledge in the fields of **Energy Efficiency and Renewable Energies**: Technologies aimed at improving efficiency energy in buildings and industry, accumulation techniques, electromobility for sustainability and knowledge of the different renewable energy sources.

WORKSHOPS AND OTHER ACTIVITIES AIMED TO CITIZENS AND SOCIAL RESPONSIBILITY ABOUT ENERGY EFFICIENCY

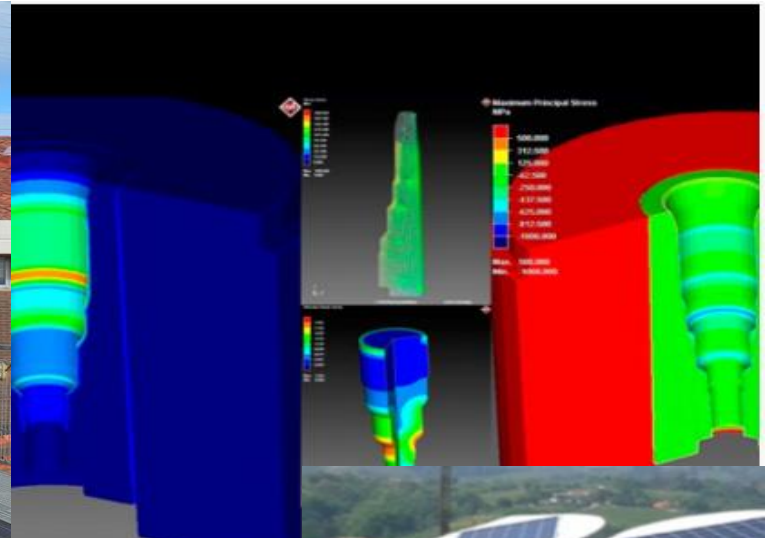

¿WHICH KIND OF ACTIVITIES? Below some examples:

- Various Workshops on Awareness on **the Efficient Use of Water for children** in the summer camps of the FOUNDATION OF THE LOCAL FUTBOL TEAM REAL SOCIEDAD.
- Informative and formative offer in Energy Efficiency and Renewable Energies in **Fairs, Talks and Presentations** of the energy, **in diverse localities**, of the hand of the DIPUTACIÓN FORAL DE GUIPÚZCOA since 2014.
- **Informative workshops throughout the year** about efficient sources for technicians and also local agents and people.
- Construction **of Enegur by professors, technicians and students**, a prefabricated module built under the criteria of **PASSIVHAUS**: well insulated, avoiding infiltrations, and equipped with mechanical ventilation connected to a CANADIAN WELL. The thermal input will be completed by solar thermal and aérothermal energy, and the electric one thanks to the micro-network that combines two fields of photovoltaic capture of 10 kWp and a wind turbine of 3 kWp.

TECHNICAL INNOVATION AND IMPROVEMENT SERVICES

TARGET COMPANIES

All **SMEs**, with the focus on increasing their competitiveness.

¿WHAT TYPE OF SERVICES?

There are different calls for funding aimed at companies. From TKgune we will help you to analyse the possibility of submitting your **improvement or innovation projects** to calls for funding, also carrying out the necessary procedures, formalities and follow-up.

- **AUTOMATION**
- **AUTOMOTIVE**
- **ENERGY EFFICIENCY**
- **MANUFACTURING**
- **CREATIVE INDUSTRIES**

¿WHO CARRIES OUT THE SERVICE?

Once the need of the company is detected, the project is defined to be carried out **by the teachers**, who are the **real technical experts** by using all the knowledge created in **TKNIKA, Basque Center of Research and Applied Innovation in Vocational Education and Training**.
